THE BRIDAL WINE CUP. WILLIAM WITHOUT BOTH WITHOUTS. "Drink to my health!" the lady cried,

One guest with hoary locks replied : Nay, hely, fill not mine!" The fair bride flushed from cheek to brow

The guests paused in the toast; One cried: "What means this ruden: Explain, sir, to the host." The man with hoary locks looked up,

Each guest, untasted, held the cup, And listened while he spoke. I loved," he said, "long years ago,

The maid was fair to see; Our love was such as angels know I had not tasted wine until The bridal-feast was spread :

Touch not! the scrpent lurks to kill!" A mother's voice had said. But 'Drink!' cried one, whose love-lit eyes I drank and angels in the skies Wept as they gazed on me

I drank - the demon thirst that slept Awoke - brooked no control ; Through heart, nerve and brain it crept,

I drank up health and wealth and all That cheers and gladdens life; sgrace and ruin crowned my fall-A blow killed child and wife.

He paused. The fair young bride looked u Her dark eyes glowed with light; "Dear friends," she said, "set by the cup!-Piedge me in water bright."

THE DOCTOR'S COURTSHIP.

Y dear fellow," said Bartley, "you can no more afford such a wife than you can afford a steam yacht or an ivory mounted billiard table."

"There's no occasion to tell me that," mournfully replied Dr. Dale. "I'm quite aware of it already. If I was rich I'd marry Miss Clarke to-morrow-always providing that she thought me worthy of acceptance; but I am only a struggling young doctor. I'll do my best to keep away from her facinations in the future."

"A sensible decision," observed Bart-"But she is so pretty!" yearningly

remarked Dr. Dale. "Stick to your colors, man!" cried Bartley. "Clissy Clarke is nothing on earth but a society belle. What you want is a helpful, willing, working bee for a wife-one that can aid you with heart and hand to climb life's hill. You James H. Bowden, A. E. Richards, J. Q. beart and hand to climb life's hill. You Ward; Sergent, John M. Elliott; Tipstaff, saw Miss Clarke at the Winfield masquerade last night in white satin and

ropes of seed pearl, and violet blue eyes sparkling with girlish animation.

wife ?" "No," hesitatingly.

something to Clissy about going to the Clarke cottage that day. "It won't do," he said to himself; "I

had better keep away." And so, instead of following the dearhimself, with Spartan resolve, to the

She feels she owes her life to it."

ing down at his memorandum-book. It seemed that the gloomy veil which had dropped between him and his future life was lifted. In his heart he could have blessed the angel tongues of these idle, gossiping girls.

Clissy, then, was no mere butterfly, but a true, noble-hearted working girl! He carried back the ponderous medical tome to the assistant librarian. "Much obliged," he remarked, su

"Got through with it pretty quick, haven't you?" said the assistant libra-

morning," said the doctor cheerfully. He went straightway to the cottage on the outskirts of the village, where Clarissa Clarke lived. An apple cheeked little brother came to the door to answer the knock. "Yes, Clissy's at home," said he.

'But she's fixing a chicken for papa's dinner. And then she's got my trousers to mend. Clissy can't come But Dr. Dale laughingly pushed his

way across the threshold "I'll come in and wait," said he. In five minutes Clissy came in, look-

ing even prettier, if it were a possible thing, in the calico morning dress than she had in the white satin and pearls the evening before. How he happened to speak out the

dearest wish of his heart, Dr. Dale never quite knew. He had prepared a form of words on his way, but they had vanished utterly out of his mind when the eventful moment came. He could only remember that she stood before him in all her fresh beauty, like a human apple-blossom, and that he loved

But after he had her hand in his one arm thrown, caressingly around her waist, he told her of the morning

"Until then, dearest," he said. "I ooked upon you as a sort of unattainable luxury-a star to be worshiped afar off only. I knew I was only a village doctor, with more ambition than practice-for the present at least. But now I feel that I may venture to hope. Will you run the risk of sharing my scanty fortune, Clissy?"

"Willingly." she said, looking up into his face, with her frank, blue eyes. "And, to tell the truth," she added, smiling a little shyly, "I am almost glad that you are not a rich man. Because, dear, I shall be so glad, so proud to help you in my humble way."

LEWISTON, ME., Aug. 28.-Mr. Blaine "And very beautiful she looked," in his campaign address here yesterday rate of speed. The torpedo portion of cried the young physician, firing sud- advocated the policy of protection as the experiment was tried. It is de-Clarke's auburn hair, all twisted with er things he said that we only needed gether by a chian and fastened to cork- game hen at Point au Prince when the brought into competition with those of "Did she look like a poor man's produce in our climate, were not taxed He recollected, now, that he had said and were placed on the free list. This was absolute free trade, and the United States have it to a degree never known in any government since government was known among men. England has no free trade with her colonies. They est inclinations of his heart, he betook tax her products. England can not export an article to Canada without its being taxed at the custom-house, whereas all articles produced in any part of gation of cholera microbes," he thought the United States are sent to every port "If a man expects to make any mark free of duty. There is more free trade in this than could be found in the whole continent of Europe. Therefore as we combine the benefits of protection from foreign competition with internal free coves of the library with the medical trade, it would be absurd to enlarge our quarto and his memorandum-book, and free trade system so as to give foreign-

ers access to it. One of the signs of the Democratic party consists in their willinguess to expose our workingmen to day getting one-half the wages of American labor. Mr. Blaine then proceeded to speak of the important matters which depend sy, up to her elbows in flour and spices." on the result of the approaching election "Well, I never!" said the other with in this State. His attention having been called to the circulars distributed among the audience by Prohibitionists said the first speaker scornfully, "like he reaffirmed the position he had previously taken in his speeches of this

week in regard to a national wilisky candidate for re-election to Congress, and for Mr. Bedwell for Governor.

The new stamped letter sheet to go in use October 1st is a unique device for correspondence through the mails. It

Reed, druggist, of Winchester, Ind., writes: "One of my customers, Mrs. Louisa Pike, Bartonia, Randolph county, Ind., was a long sufferer yawn, "who at the party last night with consumption, and was given up to die by her physicians. She heard of "Humph!" remarked the other, Dr. King's New Discovery for ConJULES VERNE'S DREAM.

one of the Children of a Novelist's Imagi nation to Become a Reality Through Man's Inventive Genius. NEW YORK, Aug. 25.-The dream of Jules Verne seems to have been real-

ized in a boat constructed by an American inventor. The World this morning gives the following account of a trial of the boat yesterday:

A sub-marine torpedo boat, invented by Prof. J. H. L. Tuck, was yesterday tested and proved a practical success in the presence of a large party of gentlemen interested, who were aboard the steamer Chance. The torpedo boat has been christened the Peacemaker. She was constructed at the yard of C. H. Delameter & Co., and is 30 feet long, with a breath of beam of 8} feet and a depth of 71 feet. The bow and stern taper off from amidships, and the forward end of the vessel is surmounted by a dome tweve inches high, which is set with glass and just large enough for the pilot to get his head into. Admission to the boat is through a circular scuttle abaft of the dome. At the stern there is a propeller and a rudder of ordinary fashion, and two horizontal rudders, with machinery and mechanical devices, including a powerful Westinghouse engine. Compresed air is stored in sixinch pipes running around the interior, and arrangements are made by which air is supplied by chemicals. A gauge registers the depth of the vessel beeath the surface. Light is furnished by an incandescent electric lamp.

At yesterday's experiment Capt. John G. Holland and Engineer John H. Kline slipped down into the iron hull and fastened the air tight scuttle. Then the Captain's head appeared in the lookout dome, and the iron fish started down the river. She had not them." gone 100 feet before she slipped her nose into the water and gradually slid out of ight beneath the ruffled surface. The spectators anxiously watched the spot where she disappeared for three minutes, when she reappeared about a quarter of a mile to leeward and headed toward them. The Sylvan Glen was coming down the river only a few hundred feet above, and her Captain was much surprised at the sudden appearance of the iron monster. He tooted his whistle vigorously and put his wheel hard-a-port, whereat the torpedo boat kicked up its heels and again dis-

appeared. The Peacemaker reached a depth yesterday of forty feet and attained a fair selves to the iron or steel sheeting of a other nations. Numerous articles, like vessel to be destroyed. They are to be tea and coffee, which we could not fired by electricity after the torpedo boat has reached a safe distance. Prof. Tuck is working on a device by which he claims the occupant of the boat will be able to live at a depth of forty feet and return again in safety.

What is Farming It is something more than staying on a farm. It is something more than skimming the soil. It is more than selling hay or potatoes, and bulky crops unanimalized. Farming is business, a profession, a practical and scientific operation. The process of nature must be understood, and worked in harmony with the chemistry of the earth and air. The process nature must be understood, if not in their technical terms and language in inderstanding, that common sense way, that their own advantage and capabilities may be turned to the best ecount. The lawyer works by law and precedent, the physician works by symptoms and indications, the merchant by rules and observation, the mechanic by measures and capacities. The farmer must work by all-by rules, laws, observation, and experiment. He must be a skilled workman in the productive, operative and commercial circles in which his business lies and his sphere of circulation

The prevention of decay in wood i said to be effectively accomplished by exhausting the air from the pores and filling them with a gutta percha solution, a substance which preserves the wood alike from moisture, water, and the action of the sun. The solution is made by mixing two-thirds of gutta percha to one-third paraffine, this nixture being then heated to liquefy the gutta percha, when it is readily introduced into the pores of the wood, when it becomes cool, to harden the

Times without number has the world said tribute to another's devotion. Further evidence of her love for her children is the fact that she appreciates

Good mothers know its value, and use it promptly when they observe symptoms of worms, thereby restoring their children to make the formula of the stomach, etc. A moisture like cure, secured some for me. This was in February, 1885, and after taking six small bottles I noticed a change in the common attendant. small bottles I noticed a change in the feeling of the limbs, and could turn over pain. After a dozen bottles had been application of Dr. Bosanko's Pile Remused, I could walk on crutches. I am now able to walk without cruthes, and the intense itching and effecting a permanent cure. Price 50c. Address The Dr. Bosanko Medicine Co., Piqua, O. Sold by Z. Wayne Griffin & Bro., Drug-

gists, Hartford, Ky.
